**Online
Shopping**

A: Good morning, we're from 4A. I'm Alan.

M: I'm Maggie. Today, we are sharing our views on some issues related to online shopping.

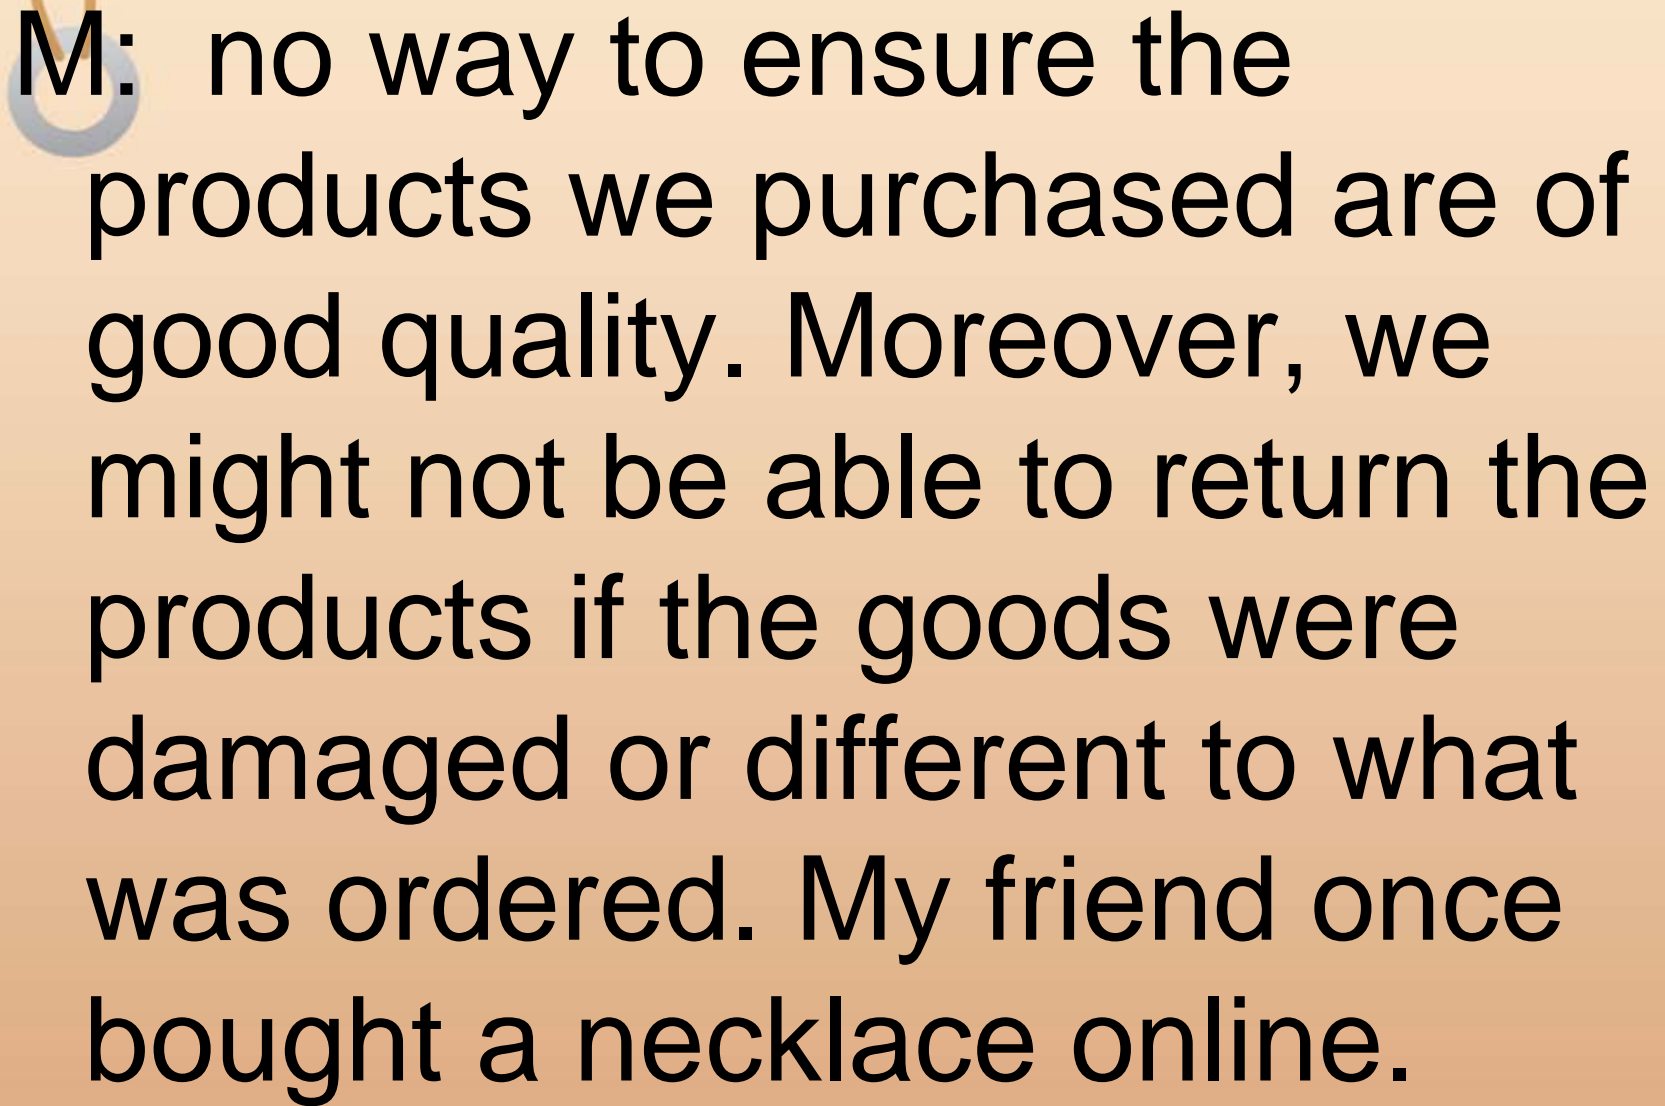

A: So, Maggie, are you ready to share with us?

M: Of course!

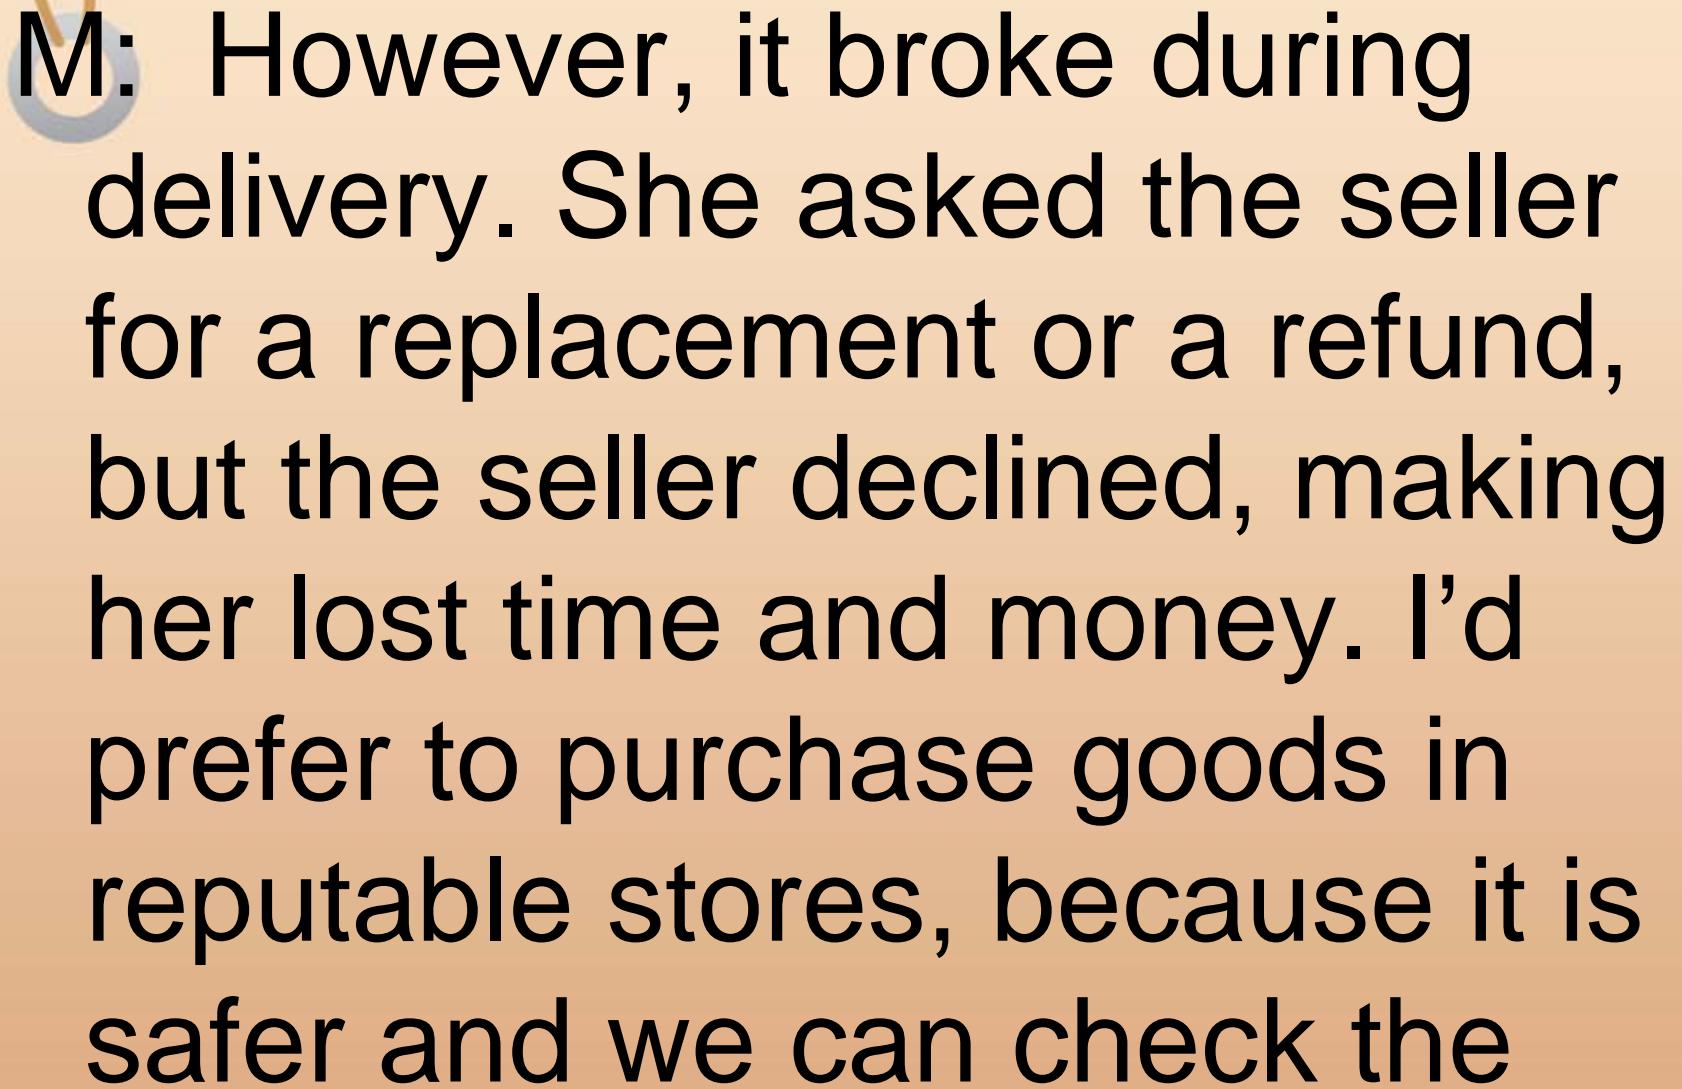

A: Candidate, you have one minute to answer the following question. Would you feel safe buying something online?

M: Thank you for your question. I certainly wouldn't feel safe buying things online, because I think it is a very dangerous act. There are always dishonest sellers selling damaged or sub-standard goods, and it's a pity there's

A yellow rectangular paper note is pinned to a light blue background with a splatter pattern. A yellow paperclip is attached to the top left corner of the note. The text on the note is in a large, black, sans-serif font.

M: no way to ensure the products we purchased are of good quality. Moreover, we might not be able to return the products if the goods were damaged or different to what was ordered. My friend once bought a necklace online.

M: However, it broke during delivery. She asked the seller for a replacement or a refund, but the seller declined, making her lost time and money. I'd prefer to purchase goods in reputable stores, because it is safer and we can check the

M: state of the product before buying. Yet, if we have to buy goods online, we should think carefully. Thank you.

A: That's so unfortunate of your friend. I hope such scenarios won't happen for a second time. Thank you for your sharing, Maggie.

M: It's my pleasure. Now, candidate, it's your turn. You have one minute to answer the following question. Do you think there should be an age limit for online shoppers?

- 
- A: Thank you for your question. I think we should have an age limit for online shopping. In my opinion, online shoppers should be at least 18 years old. I think this can protect the teenagers. As you know, shopping online may be

- 
- A: dangerous but at the same time, convenient, so it attracts many people to go shop on the Internet, especially young people. However, young people are usually not mature enough and may be easily misled by dishonest sellers to

- 
- A: buy pirated goods. More importantly, hackers may steal their personal information if they disclose it to others casually. Thus, I think we should set an age limit for online shopping. Thank you!

M: I agree with you! So I hope everyone learnt more about being a wise consumer.

A: Yes. Don't be easily attracted by items that may seem to be cheap. Thank you for listening.
